INTRODUCING THE S.F.E. GROUP

The **Specialized Fabrication Equipment Group** (in short: **S.F.E. Group**) was founded in 2019 after the merger of three world leading OEM's in the field of pipe fabrication tooling and machinery: B&B Pipe and Industrial Tools LLC (USA), Mathey Dearman Inc. (USA) and TAG Pipe Equipment Specialists (UK). In a time span of 5 years, another 4 renowned and market leading companies were acquired and added to the **S.F.E. Group** portfolio: Axxair (France, 2022), Magnatech (USA, 2023), Climax (USA, 2023) and SUMNER (USA, 2025).

The vision and philosophy of the **S.F.E. Group** is to offer globally a comprehensive innovative and cost-effective range of specialized fabrication, welding and machining equipment and derived rental solutions, for a wide range of applications within all critical industries, while optimizing performance, efficiency and safety.

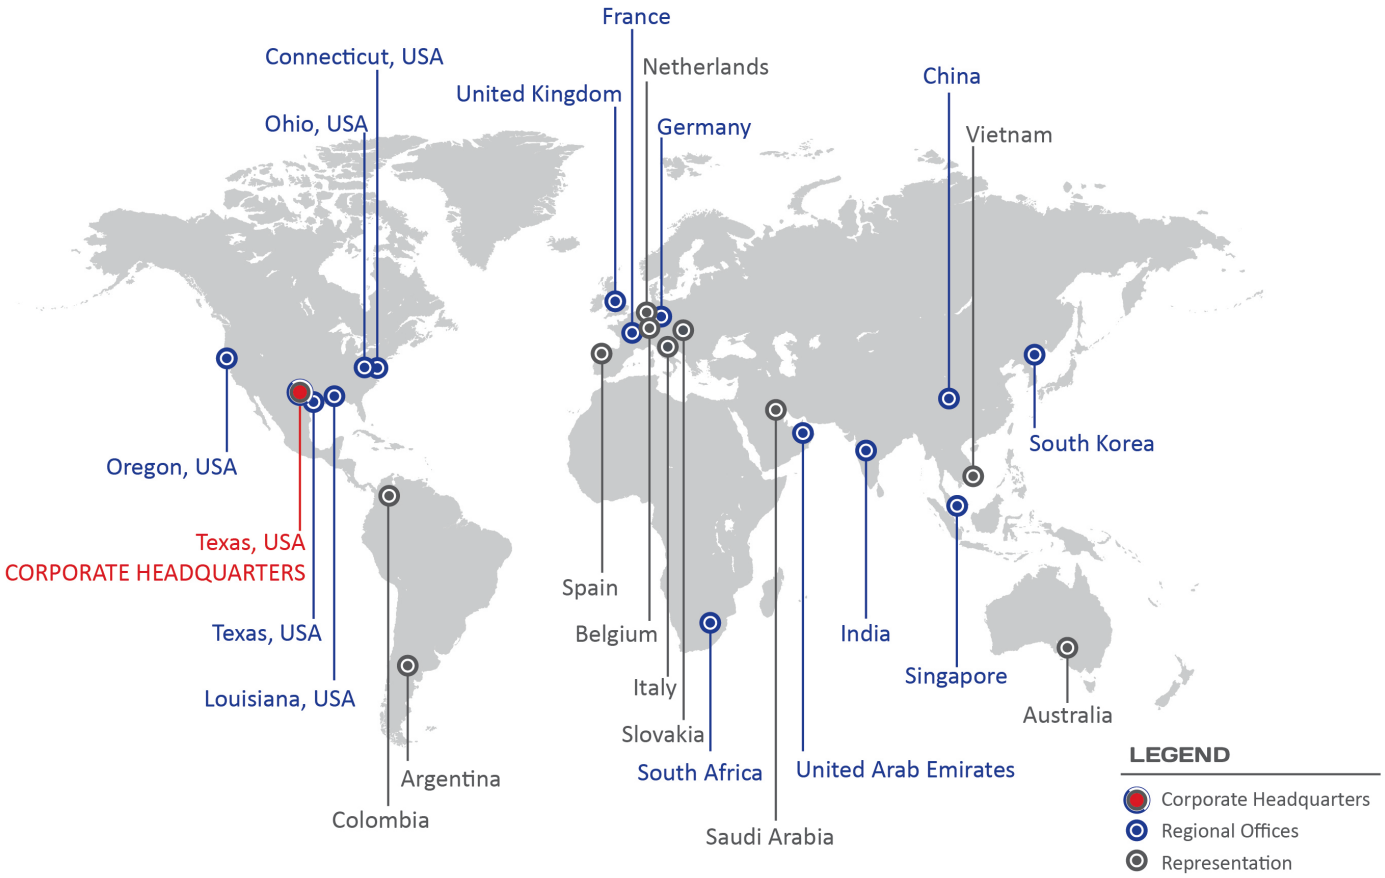

Leveraging over 200 years of combined experience in engineering, manufacturing, and field applications, the **S.F.E. Group** is committed to driving innovation. Through continuous product development and strategic acquisitions, the **S.F.E. Group** is actively growing its portfolio and expanding its global presence to meet the demands of industries around the world. Currently, the **S.F.E. Group** consists of 12 complimentary brands, each supporting the others in delivering cutting-edge solutions.

With offices and warehousing on 5 continents, 400+ employees and more than 500 partnerships and distributors worldwide, **S.F.E. Group** prides itself on consistently offering the highest standards of both product quality and service locally to all its customers.

S.F.E. Group looks forward to welcoming you into its global network as a partner, distributor or end user customer and remains at your disposal at any time.

INTRODUCING SUMNER MATERIAL LIFTS

SUMNER Material Lifts is a world leading brand in the material handling and construction industries, renowned for its innovative, durable, and user-friendly solutions. Founded in 1965 and now a part of the Specialized Fabrication Equipment Group (in short S.F.E. Group), **SUMNER Material Lifts** has built a global reputation for providing high-quality lifting equipment. Designed with safety and efficiency in mind, **SUMNER Material Lifts** products are widely used by professionals in mechanical contracting, plumbing, HVAC, welding, and electrical installation.

SUMNER Material Lifts' product line includes a broad range of lifting tools such as material lifts, duct lifts, Roust-A-Bouts, gantries, and heavy-duty hoists, all engineered to meet the demanding requirements of job sites around the world. All equipment is known for ease of use, robust construction, and industry-leading safety features, making it the preferred choice for both large-scale industrial projects and everyday construction needs.

With a long tradition of quality, reliability and value and a strong commitment to innovation and customer satisfaction, **SUMNER Material Lifts** continues to set the standard in lifting and material handling solutions.

In conjunction with all other S.F.E. Group portfolio's brands, **SUMNER Material Lifts** continues to lead the way in lifting and fabrication solutions, delivering tools that elevate the operator's standard of work.

SUMNER Material Lifts products are always nearby available within the S.F.E. Group global network and can be consulted on the dedicated website: www.SUMNER.com

SERIES 2000 SHORT STACK™ LIFT

The SUMNER Material Lifts Series 2000 Short Stack™ Lift is engineered to deliver powerful lifting capacity within a compact footprint, making it an excellent choice for applications where space is limited. Despite its shortened design, the Series 2000 Short Stack™ Lift maintains robust lifting capabilities, offering a maximum capacity of 800 lbs / 362 kg and reach heights of 12 - 16 ft / 3.66 - 4.88 m. Its narrow frame enables the lift to easily pass through standard doorways, while its integrated lifting eye allows for safe overhead handling.

Designed with both convenience and safety in mind, this lift includes features such as 360° pulley cable protection and internally routed cables to minimize exposure and risk during operation. The forks can be reversed for added vertical reach, and the unit breaks down quickly for transport or storage. Whether used for HVAC installation, warehouse material handling, or mechanical contracting, the Short Stack™ lift delivers uncompromised performance in a size-conscious design.

SPECIFICATIONS

- Lifting capacity of up to 800 lbs / 362 kg
- Lifting heights of 12 - 16 ft / 3.66 - 4.88 m
- Compact frame easily fits through standard doorways
- Internal cable routing prevents operator contact
- 360° pulley guard enhances operational safety
- Reversible forks increase max height
- Integrated lifting eye for crane handling
- Plunger pins eliminate loose tools and hardware
- Tool-free assembly for fast setup and transport
- Available in powder-coated or galvanized models
