PREMIUM LEVER HOISTS

ONLY STOCKED IN THE AMERICAS

The SUMNER Material Lifts Premium Lever Hoist is engineered for professionals who demand superior durability, smooth control, and enhanced safety in high-capacity lifting. With load ratings from 0.8 to 9 tons (726 - 8,165 kg) and chain lengths of 5 - 20 ft / 1.52 - 6.10 m, this hoist is ideal for heavy industrial and construction use.

Each hoist features a fused brake system for consistent load control and a zinc phosphate-treated load chain, which provides excellent resistance to corrosion - making it a great fit for outdoor or humid environments. The ergonomic handle reduces operator fatigue, even during long shifts. The hoist's low headroom design and removable top hook allow for maximum flexibility during setup and use.

Built with hardened steel components and tested at 1.5 times the rated load, the Premium Lever Hoist is a robust solution for repetitive, critical lifting tasks in challenging environments.
